DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
2. The disclosure is objected to because of the following informalities: page 11 line 7, **109** should be *1009*.

Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 27 – 39 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The computer program claimed is merely a set of instructions per se. Since the computer program is merely a set of instructions not embodied on a computer readable medium to realize the computer program functionality, the claimed subject matter is non-statutory. See MPEP § 2106 IV.B.1.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2624

4. Claims 5, 18, and 31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims add the limitation '**selection means selects the print method for each print job**'. It is unclear to the Examiner what is considered a print job because it is not particularly pointed out or distinctly claimed in the parent claim. Examples that could be considered a print job are the '**print data**' or '**image data**' for a job or '**each copy**' as a print job or a '**multi-copy**' as a print job or some other distinction of a print job. Thus, the claims are rejected for failing to particularly pointing out or distinctly claiming what is claimed by the term '**print job**'.

Allowable Subject Matter

5. Claims 1 – 4, 6 – 17, and 19 – 26 are allowed.

6. Claim 40 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
